100 Claude Prompt Shortcuts

Prefix or suffix any prompt to instantly change how Claude responds

HOW TO USE

Prefix: ULTRA: explain React reconciliation
Suffix: explain React reconciliation — DENSE:
Stack: BRUTAL: DENSE: review my resume [paste]

20	20	10	10	10	10	10	6	8
Output	Reasoning	Behavior	Learning	Productivity	Writing	Business	Code	Meta

Shortcut	Category	What it does
ELI5:	Output	Explain Like I'm 5 — zero jargon, pure analogies
ELI10:	Output	Slightly more detail than ELI5, still beginner-friendly
TLDR:	Output	1-2 sentence summary only, nothing else
BLUF:	Output	Bottom Line Up Front — most important point in sentence 1
SHORT:	Output	Respond in 3 sentences max, no exceptions
MINI:	Output	One sentence only
LONG:	Output	Exhaustive, comprehensive answer — don't hold back
DENSE:	Output	Maximum information density, bullets, no filler
SIMPLE:	Output	Plain language only — no technical terms allowed
FORMAL:	Output	Formal, professional register — polished prose
CASUAL:	Output	Casual tone — like texting a smart friend
TWEET:	Output	Compress into a single tweet (280 chars max)
THREAD:	Output	Format as a Twitter/X thread of 5-8 punchy posts
MEMO:	Output	Format as a professional internal memo
BULLETS:	Output	Bullet points only, no prose, no intro, no conclusion
TABLE:	Output	Format output as a markdown table
JSON:	Output	Output only valid JSON, no prose

Shortcut	Category	What it does
XML:	Output	Output only valid XML, no prose
CODE:	Output	Output only code, no explanation unless asked
NOCODE:	Output	No code blocks — explain conceptually only
ULTRA:	Reasoning	Maximum depth reasoning before answering
STEP:	Reasoning	Force step-by-step reasoning, show all steps
WHY5:	Reasoning	Apply 5 Whys root-cause analysis
INVERT:	Reasoning	Inversion thinking — how to guarantee failure, then flip
STEEL:	Reasoning	Steelman — give the argument its strongest version
DEVIL:	Reasoning	Devil's advocate — argue the opposite position hard
BAYES:	Reasoning	Apply Bayesian reasoning with probability updates
2ND:	Reasoning	Analyze second and third-order effects only
FIRST:	Reasoning	First-principles decomposition from scratch
OODA:	Reasoning	Observe-Orient-Decide-Act cycle before answering
TREE:	Reasoning	Tree of thoughts — explore 3 branches then converge
PRE:	Reasoning	Pre-mortem — assume it failed, work backwards
POST:	Reasoning	Post-mortem analysis of what went wrong and why
ASSUME:	Reasoning	List all hidden assumptions before answering
COUNTER:	Reasoning	Generate the strongest counterargument to my point
CONTRAST:	Reasoning	Force explicit comparison of two options
2ND_FX:	Reasoning	Map cascade effects two levels deep
SCOPE:	Reasoning	Define and constrain the exact problem space first
ZOOM:	Reasoning	Alternate between tactical detail and strategic altitude
KNOWN:	Reasoning	Map known, known-unknowns, and unknown-unknowns
BRUTAL:	Behavior	Brutal honesty — no softening, no compliment sandwich
BLUNT:	Behavior	No hedging, no caveats, no disclaimers. Just the answer
CITE:	Behavior	Back every claim with a source or flag as unverified
CONF:	Behavior	Add confidence % in brackets after every factual claim
FLAG:	Behavior	Explicitly flag every assumption and uncertainty
PUSH:	Behavior	Push back on me if I'm wrong — don't just agree
NOPAD:	Behavior	No filler, no greetings, no 'great question'
NOLIST:	Behavior	Prose only — no bullet points or numbered lists
NOHYPE:	Behavior	Strip all marketing language, buzzwords, and hype
DUAL:	Behavior	Dual newspaper test — not harmful, not needlessly unhelpful
TEACH:	Learning	Explain pedagogically — build from fundamentals up

Shortcut	Category	What it does
QUIZ:	Learning	End explanation with 3 quiz questions
GAP:	Learning	Identify gaps in my understanding from what I wrote
SOCRATIC:	Learning	Only respond with questions to guide me to the answer
FEYNMAN:	Learning	Explain using only simple analogies and plain words
ANALOGIES:	Learning	Give 5 analogies from different domains
ANKI:	Learning	Generate 5 Anki flashcard Q&A; pairs on this topic
MAP:	Learning	Create a concept map / knowledge structure
MISCONC:	Learning	List common misconceptions people have about this
HISTORY:	Learning	Explain the historical origin and evolution of this idea
PLAN:	Productivity	Step-by-step action plan with owners and deadlines
SPRINT:	Productivity	Break into a 2-week sprint with daily tasks
FAST:	Productivity	Fastest path to done — skip theory, just practical steps
BLOCK:	Productivity	Turn this into a time-blocked daily schedule
PRIOR:	Productivity	Prioritize using Eisenhower matrix
80/20:	Productivity	Identify the 20% of effort driving 80% of results
CHECKLIST:	Productivity	Convert this into an actionable checklist
BATCH:	Productivity	Group these tasks by context for batched execution
EXIT:	Productivity	Define clear, measurable exit criteria for this task
DELEGATE:	Productivity	Identify what can be delegated and to whom
DRAFT:	Writing	Rough first draft, no polish needed
POLISH:	Writing	Refine and polish — improve flow, word choice, clarity
HOOK:	Writing	Write only the opening hook — make it irresistible
CTA:	Writing	Write a compelling call-to-action
REFRAME:	Writing	Reframe message to land better with the audience
COMPRESS:	Writing	Compress to 50% length without losing meaning
EXPAND:	Writing	Expand into a fuller version with more detail
APHORISM:	Writing	Distill the core idea into one quotable maxim
TONE:	Writing	Shift the tone while keeping the meaning intact
ANTIJAR:	Writing	Remove all jargon — plain English only
SWOT:	Business	Structured SWOT analysis — specific, non-generic
PRD:	Business	Generate a Product Requirements Document
JTBD:	Business	Apply Jobs-To-Be-Done framework
OKR:	Business	Generate Objectives and Key Results
RICE:	Business	Prioritize using RICE scoring framework

Shortcut	Category	What it does
